02K43UF

The product cures (polymerises) in the absence of atmospheric oxygen (anaerobic) and under the catalytic effect of the metal (metal contact).

WIKO 02K43UF seals and closes many types of screw connections.

- DVGW approval (DIN EN 751-1 Class H)
- fast curing on a wide range of ferrous metals
- high resistance to vibrations
- secured screws moderately difficult to dismantle with tools
- increased oil compatibility

Compared to conventional anaerobic adhesives, USER-FRIENDLY LINE products are completely label-free. In addition to a longer shelf life of 24 instead of 12 months, they also offer the user improved storage stability as well as increased temperature resistance of up to +180° C in use.

Properties

- Particularly user and environmentally friendly
- PFAS-free
- Without hazardous substance labeling
- Max. clearance: M36
- Handling cure time ca. 5 - 15 minutes
- Temperature resistance: -55 °C to +180 °C
- Viscosity: 1.500 - 4.000 mPas
