06K03UF

The product cures (polymerises) in the absence of atmospheric oxygen (anaerobic) and under the catalytic effect of the metal (metal contact).

- Fast-curing universal product with highest strength
- For static shear stress and dynamic loads
- Fastening of gear wheels, belt pulleys, rotor-shaft connections on electric motors, etc.

Compared to conventional anaerobic adhesives, USER-FRIENDLY LINE products are completely label-free. In addition to a longer shelf life of 24 instead of 12 months, they also offer the user improved storage stability as well as increased temperature resistance of up to +180° C in use.

Properties

- Max. gap filling ability: 0,15 mm
- PFAS-free
- Handling Cure Time: 5 - 15 minutes
- Temperature resistance: -55 °C to +180 °C
- Viscosity: 100 - 200 mPas
